

Bloodborne Pathogens -Course Summary-

Length of Course: 2 hours

Course Objectives:

- If there's any chance you or your employees might come in contact with blood or any other potentially infectious materials this course is required.
- This program will show participants how to comply with the OSHA Bloodborne Pathogens Standard which mandates control measures to reduce the risk of contracting various pathogens including Hepatitis B, Hepatitis C, HIV, and so on.
- This program meets and exceeds OSHA requirements for Bloodborne Pathogens training.

Topics include:

- Methods of disease transmission
- Exposure control techniques including:
 - work practice controls,
 - engineering controls,
 - universal precautions,
 - and personal protective clothing and equipment.

Target Audience:

- First Responders
- Dental
- Medial Professionals
- Lab Workers
- Police
- Fire Fighters
- EMTs and paramedics
