

## DOT HazMat Awareness with HazMat Security -Course Summary-

**Length of Course:** 4 hours

**Course Objectives:**

- This training is required for all employees who directly handle or affect hazardous material/waste transportation safety, including loading, unloading, preparing, transporting, and preparing bills of lading/manifests or placarding for hazardous material shipments. This course meets and exceeds training requirements for federal DOT regulations.

**Topics include:**

- Requirements of the DOT regulations relative to the transportation of hazardous materials.
- Basic safety elements including recognition and identification of hazardous materials as required by the DOT regulations and the Hazard Communication Standard.
- Basic operations required for handling emergencies involving hazardous materials for the DOT Hazmat Employee.
- Hazardous Materials Table (49 CFR 172.101), Labels and Placards, and Shipping Papers.
- DOT hazard classes and associated them with the appropriate placards for use in transportation.
- An awareness of security risks associated with hazardous materials transportation
- An awareness of methods designed to enhance transportation security.
- An awareness of how to recognize and respond to possible security threats.

**Target Audience:**

The United States Department of Transportation (DOT) has established a series of regulations governing training programs for what are termed Hazmat Employees. In actuality, Hazmat employees could be anyone who meets any of the following criteria:

- A person who offers a hazardous material for transportation
- A person who is involved in the transportation of a hazardous material
- A person who labels or marks packages that are being transported
