

Air Quality Monitoring

OUR QUALIFICATIONS, EXPERIENCE, ADAPTABILITY AND COMMITMENT TO CUSTOMER SERVICE ARE SECOND TO NONE!

Service description:

- The goal of an industrial hygiene program is to maintain worker exposures below permissible levels
- Your Safety Coach can assist you with your industrial hygiene investigations by providing technical expertise, regulatory consultation, and industrial hygiene sampling/baseline monitoring
- Safety Links offers comprehensive monitoring services for thousands of airborne contaminants including sampling for dusts, fibers, fumes, mists, vapors (hydrocarbons, organic solvents, etc.) and gasses (Carbon Monoxide, Sulfur Dioxide, etc..)
- We can develop an air-monitoring program to confirm whether toxins are present and to determine if they present hazards

You should take advantage of this service if you....

- Are starting a new company
- Are initiating a process
- Have changed an existing process
- Want to protect your employees
- Have had sick employees
- Want to comply with current regulations and standards
- Want to protect your business from future litigation

Benefits of this service:

- Document compliance with industry standards
- Protect your employees
- Protect your company

Service scope and price schedule:

- Since each organization has unique requirements it would be our pleasure to provide you with a detailed proposal outlining the scope of work and prices based on your needs
