

Safety Management Services

OUR QUALIFICATIONS, EXPERIENCE, ADAPTABILITY AND COMMITMENT TO CUSTOMER SERVICE ARE SECOND TO NONE!

Service description:

- Allow Safety Links to be your in-house safety manager.
- This service is perfect for you if:
 - you are not large enough to have a in-house safety professional,
 - you have had to make cuts to your safety staff, or
 - your in house safety staff need some assistance.
- In these cases safety responsibilities frequently fall to individuals that do not have the knowledge or expertise needed to effectively manage the safety duties. This can cause undue risk and liability for your organization, and often results in mismanaged safety initiatives!
- We can reduce these risks at a fraction of the cost while ultimately accomplishing your safety goals more efficiently.
- Our Safety Management Services are structured on an as-needed-basis ranging from annual audits to providing a full time safety professional.

If needed, what does this service included?

- Written safety program development or revision
- Safety program implementation and management
- Industrial hygiene (noise testing, air quality, etc)
- Safety management audits
- Safety management and development of safety metrics
- Emergency planning
- Periodic safety inspection from quarterly to daily
- Incident investigations and reporting
- Compliance training
- First aid services
- Recordkeeping and document management
- OSHA citation and abatement assistance

Why use Safety Links instead of hiring an in-house safety professional?

- Reduce costs of hiring an in-house safety professional
- More efficient and wider area of expertise than an in-house safety professional
- All Safety Links training programs are included. These programs are second to none!
- All services overseen by a Certified Safety Professional (CSP)

Types of businesses that currently use our Safety Management Services:

- Manufacturing facilities
- Medical facilities
- Distribution and warehousing facilities
- Educational institutions
- General contractors (commercial)
- General contractors (residential)
- Trade contactors (Electrical, Stucco, drywall, etc)
- Swimming pool builders

Case study: This is an example of the services we provided for a small manufacturing facility with 45 employees in 12 months. Originally they required three days per month but after four months they could be scaled back to 1 day per month.

1. Initial assessment
2. Developed and implemented all necessary written programs
3. Noise survey and solvent exposure testing
4. Lock-out/ tag-out assessment
5. Ergonomic assessment
6. Monthly inspections
7. Implemented 5-S to improve housekeeping
8. Hazardous waste assessment and management
9. Trained staff in Lock out, first aid/CPR, fire extinguishers, plus many other topics
10. Managed all written program and documents.

Total cost for the Safety Links Safety Management Services \$10,400. Average cost of hiring an in-house safety professional: \$60,000 plus benefits, taxes, insurance costs, and so on. Using Safety Links this company saved over \$60,000!

How to get going with our Safety Management Services?

1. Contact us for a no cost and no pressure needs assessment and gap analysis.
2. Allow us to develop a plan and timetable to accomplish your site specific safety goals.
3. Sit back and relax. Your safety and compliance needs will be taken care of!
